MEMORANDUM FOR: National Intelligence Officer for Science & Technology

FROM: Executive Assistant to the DDCI

FYI.

-- The DDCI also signed off on the letters prepared by the IC Staff for the nominees of the Executive Steering Group.

-- The DDCI does not believe it is necessary to have NFIC review the report.

-- He would like the Steering Group to validate the recommendations either setting them aside or accepting them and getting them implemented as appropriate.

-- I will advise Eloise of all of the above plus his reactions to your memo.
